Instructions

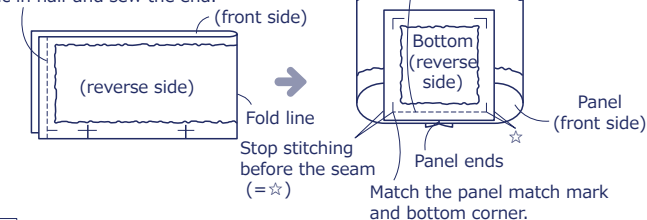

1. Adhere fusible quilt batting on the outer fabric.

Adhere fusible quilt batting on the panel fabric and bottom fabric (excluding the seam).

2. Make the outer bag.

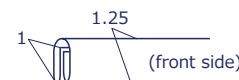

① With the front sides facing each other, fold the panel fabric in half and sew the end.

3. Make the lining bag.

Repeat the process as in Step 2.

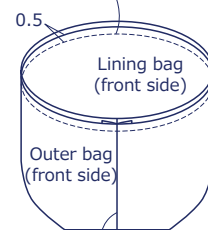

4. Make the piping fabric.

With the front sides facing outside, fold the piping fabric in four. Crease the fabric using an iron.

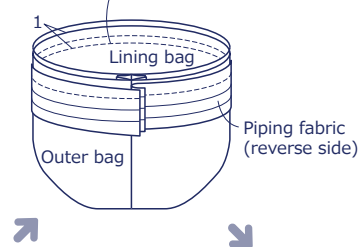

5. Finish the opening using the piping fabric.

① With the front sides facing outside, sew together the outer bag and lining bag at the top opening.

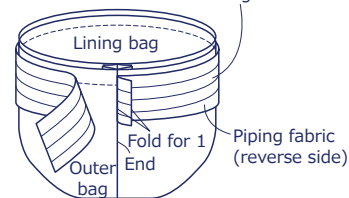

Align the ends of the outer bag and lining bag.

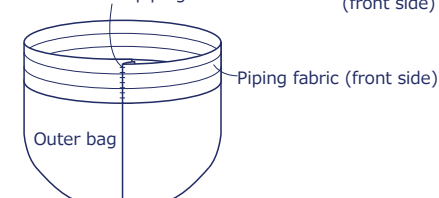

③ Sew at the top opening.

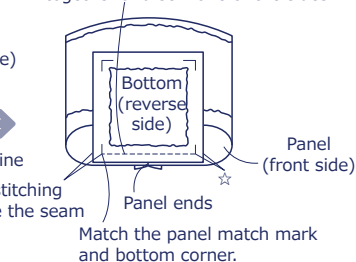

② With the front sides facing each other, put together the piping fabric and outer bag.

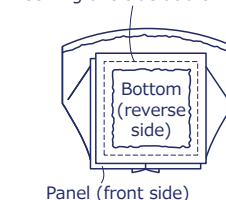

④ Close up the ends of the piping fabric.

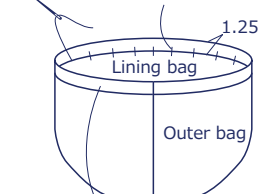

② With the front sides facing each other, put the panel and bottom together and sew one of the sides.

③ Apply the same process as in ② on the remaining three sides, sewing one side at a time.

⑤ Using the piping fabric, wrap around the top opening and finish with blind stitches.
