Instructions

1. Make the pocket.

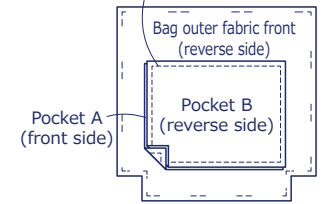

① Adhere fusible interfacing on the back of the bag outer front fabric.

⑤ Turn it over using the zipper opening. Align the shape. With the front sides facing each other, sew together the zipper and pocket A.

⑥ With the front sides facing each other, layer pocket A and pocket B and sew together, avoiding the bag outer fabric's front piece.

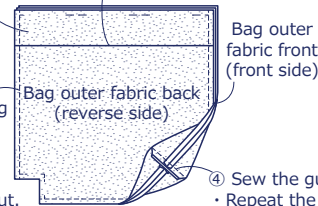

2. Make the outer bag.

① Adhere fusible interfacing on the back of the bag outer back side fabric.

② Fold the opening of two pieces of bag outer fabric at the finished line to make a crease, and open again.

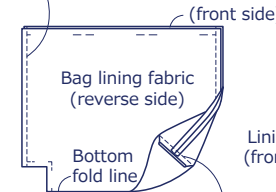

③ With the front sides facing each other, sew together the front piece and back piece of the bag outer fabric at the sides and bottom.

⑤ Turn it inside out.

3. Make the lining bag.

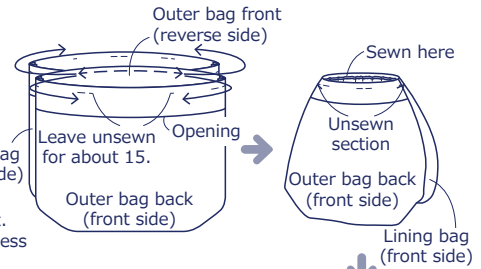

① With the front sides facing each other, fold in half and sew the sides.

③ Turn it over.

4. Sew together the outer bag and lining bag.

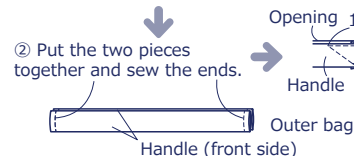

① With the front sides facing each other, sew the opening as shown, starting from the front center to the right and left.

5. Make the handle.

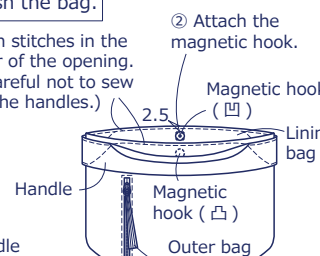

① With the front sides facing each other, fold in half and sew the long ends. Turn it over. Make two pieces.

6. Finish the bag.

① Run stitches in the center of the opening. (Be careful not to sew over the handles.)

② Place the lining bag inside. Close the unsewn section using blind stitches.

③ Bundle the faux suede tape (23cm, 4 pieces) and fold in half. Place it through the zipper pull.
