Fabric shown for this sample: (Fabric A) echino EKX-97070-72C  
(Fabric B) echino EKX-97070-72A  
(Fabric C) echino EKX-97070-71A

## Pattern and Cutting Layout

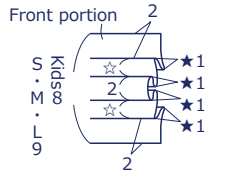

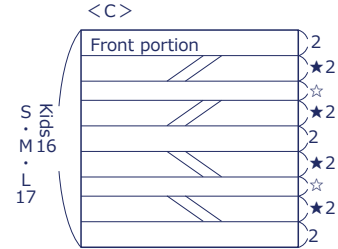

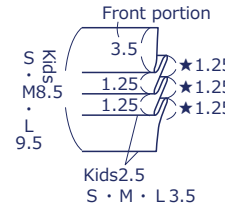

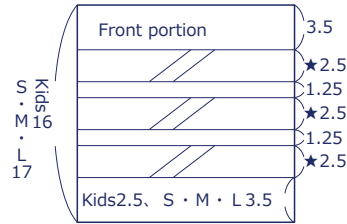

Unit: cm Seam Allowance: 1cm

## Instructions Front Side - (FrS), Reverse Side (RvS)

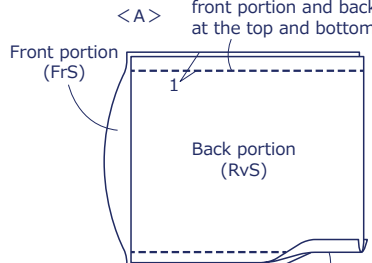

How to fold pleats. ★ = pleat position

< A · B >

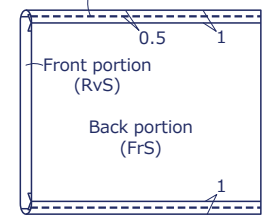

### 1. Make the main portion

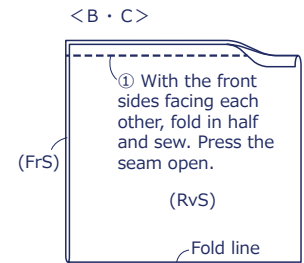

① With the front sides facing each other, sew together the front portion and back portion at the top and bottom.

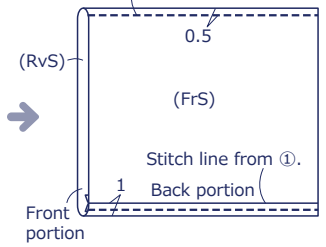

② Press the seam open.

③ Turn it inside out and apply stitches at the top and bottom.

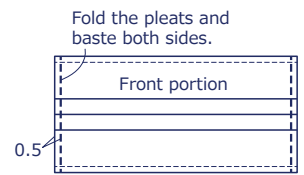

② Turn it inside out and apply stitches on the top and bottom.

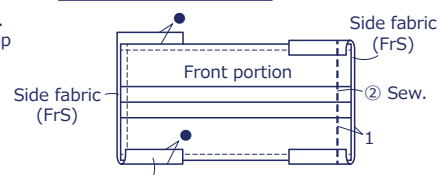

### 2. Fold pleats

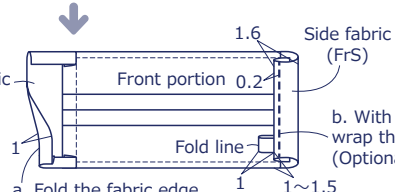

< A · B > ※ Repeat the process for C. (Refer diagram at the top for pleat details)

### 3. Attach side fabrics

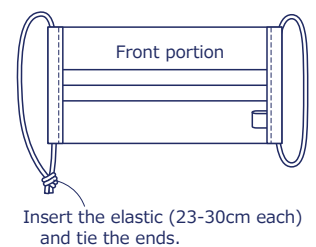

① With the front sides facing each other, place the side fabric and back portion together and fold the top and bottom ends.

③ With the front sides facing outside, fold the side fabrics in four, wrap the sides and sew.

b. With the front sides facing outside, wrap the sides and sew. (Optional - place the folded tape in-between)

### 4. Insert the elastic

Insert the elastic (23-30cm each) and tie the ends.
